DECANTING OPERATIONS ON THE 750 PAD - SRK-074-94

DOE Order: 5400.1

Per my phone conversation April 12, 1994, at 1:37PM with Debbie Mauer, there is no concern with Colorado Department of Health, (CDH) or Department of Energy (DOE) on the decanting operation at the 750 Pad sludge movement operation. Based on this, I have released the operation to commence decanting.
